

The Math/Stats Colloquium
Department of Mathematics and Statistics
San José State University

Guangliang Chen

SJSU

*The Kaggle competitions:
An introduction to CAMCOS Fall 2015*
AUGUST 26, 2015, MH320

Abstract: This first colloquium of the semester is related to the Math 203 (CAMCOS) class offered in Fall 2015. This semester's projects will be selected from www.kaggle.com, which is a platform hosting many data science competitions. This talk serves as a basic introduction to the Kaggle competitions as well as to the necessary background for working on the projects. The colloquium assumes no prior knowledge and everyone (including both CAMCOS applicants and those who want to learn more about the course) is welcome.

Background: No particular background is necessary.

About the speaker: Guangliang Chen obtained his PhD in Applied Math from the University of Minnesota in 2009. Since then he has held visiting faculty positions at Duke University and Claremont McKenna College. He joined SJSU last August as a Statistics faculty.

SNACKS IN MH331B AT 2:30 PM
TALK STARTS AT 3 PM
